

AnotHERVIEWture AWARD 2022

Annual Award for Excellence in Female Engineering and Architecture

DO YOU KNOW A FEMALE ARCHITECT OR ENGINEER?

Maybe you have heard of Zaha Hadid or Margarethe Schütte-Lihotzky?

There are 1.119 female architects and chartered engineering consultants registered in Austria and 707 of them are actively working in their field of profession. 1.119 women, representing 10% of highly trained and officially accredited experts in Austria who design and create our built environment.

The [anotHERVIEWture AWARD](#), initiated by the women committee within the Austrian Federal Chamber of Architects and Chartered Engineering Consultants, introduces many of these women and their work to you and a broader public in order to raise awareness of the female contribution in the building industry and to highlight role models in order to transform this field of profession towards equality and diversity. In 2022 the **anotHERVIEWture AWARD** will be awarded for the first time.

Categories

Category I Female Architect of the Year

Category I is intended to honour the work of Austrian female architects.

Category II Emerging Female Architect of the Year

Category II is intended to honour the work of Austrian female architects under 40 years of age at the time of the deadline for submission.

Category III Female Engineering Achievement of the Year

Category III is intended to honour advanced technical engineering achievements that combine functionality, economy, innovation and aesthetics in the planning, construction and use of buildings.

Category IV International Female Architect of the Year

Category IV is intended to honour female architects registered in countries other than Austria.

These are our aims:

- Highlight the contribution of women to building culture
- Highlight the contribution of women in technical professions and their importance in providing highly complex planning services
- Create opportunities to network and empower women in technical planning professions
- Create role models
- Raise awareness that the advancement of women is important and necessary, especially in technical professions
- Increase the proportion of women among architects and engineering consultants.
